Save copies for internal use automatically filed by whatever you choose:

As an illustration, you can save a copy of all the invoices sent to a customer. With Critical PDF, you can effortlessly achieve this when printing, emailing, or both to various recipients, including customers, vendors, and employees. The possibilities are endless!

Burst or bulk send documents:

With Critical PDF, you can easily send a comprehensive report and customize it by separating pages according to your preferences. The software also conveniently emails, prints, and files documents as individual files, with or without user interaction.

Encryption:

Critical PDF now provides document encryption services for securing confidential files such as direct deposit slips.

Template Overview:

Critical PDF relies on templates to establish settings for printed documents. These templates contain variables scattered throughout your document and are used to match the appropriate template. Various configuration options are filled out when printing or emailing the document.

Signature Capture:

Use this feature to capture signatures for invoices and packing slips.

*** Critical PDF Costs \$100.00 per user, slightly more than a roll of stamps per year.
Optional signature capture on Critical PDF documents for a \$399.99 one-time fee.**

* Installation, setup, training, and customization are available for extra consulting fees.
