EMAIL SERVICE COMPARISON

Side by side, feature by feature

Our email runs on MDaemon Email Server and SecurityGateway from **MDaemon Technologies**. Here's how it compares with Microsoft Exchange Online Plan 2. Prefer to host your own? Buy MDaemon products from Computer Team, an authorized MDaemon reseller, or directly at **www.mdaemon.com**.

FEATURE	COMPUTER TEAM, INC. W/Mdaemon	EXCHANGE ONLINE PLAN 2
Mailbox size	100 GB at the base price.	100 GB at the base price.
Email archive	Automatic the moment mail is sent or received. Deduplicated and compressed up to 70%. Supports compliance and eDiscovery; no more PST/OST files.	1.5 TB, but archiving is manual or rule-based. Mail can be deleted and lost before rules catch it.
Spam & threat protection	SecurityGateway: dual antivirus engines, zero-hour outbreak protection, phishing and QR-code scam detection, now with AI processing.	Basic filtering included. Advanced phishing and attachment protection (Defender) is a paid add-on.
Encryption & data protection	Included: rule-based encryption, e-signing, 60+ ready-made data leak rules for card numbers, SSNs and medical terms.	Data loss prevention included; encryption and e-signing vary by plan.
Mail server monitoring	Included: our mail servers are watched 24/7 by Huntress Managed EDR and its human-led security team, with ransomware early warning.	Microsoft secures its own data centers.
Webmail	MDaemon Webmail included, with configurable look and feel.	Included.
Mobile & sync	ActiveSync syncs email, calendar, contacts and tasks across Webmail, Outlook and phones.	Via Outlook apps for Apple or Android.
Daily backups	Included: daily on-site, plus off-site copies, plus an air-gapped set Mon–Fri.	Available at an extra charge.
Support	US-based, the same people every time. Average resolution about 30 minutes.	A large corporation, often overseas. Our experience: 2–3 days to resolve an issue.
Price	$6.00/month all-inclusive, paid annually.	$8.00/month base, paid annually.
